

TE Air e5M

Wireless Handheld Ultrasound System
Versatility Untethered

Unlock Versatility and Trusted Performance on the Go

The TE Air e5M is a wireless handheld ultrasound that delivers uncompromised clarity in a pocket-sized, rugged design. When paired with the TE Air App, it provides whole-body scanning versatility with advanced Matrix Thin Slice technology, smart automation, and no subscriptions or hidden costs. Ideal for clinicians across acute care, education, private practice, and more.

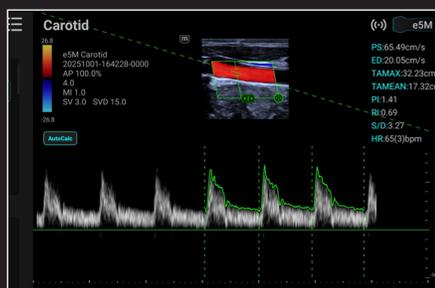

Whole-Body Imaging Empowering Clinical Confidence

The TE Air e5M delivers exceptional image quality across the whole body — from vascular and MSK to OB/GYN, cardiac, and more. Powered by Mindray's advanced crystal technology and eWave platform, it offers sharp detail, broad bandwidth, and deep scanning up to 40 cm. With 20+ presets and Doppler modes, the TE Air e5M helps clinicians make faster, more confident decisions.

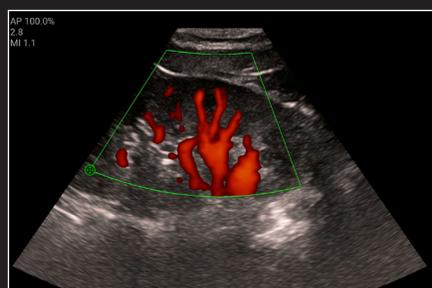

Key Features:

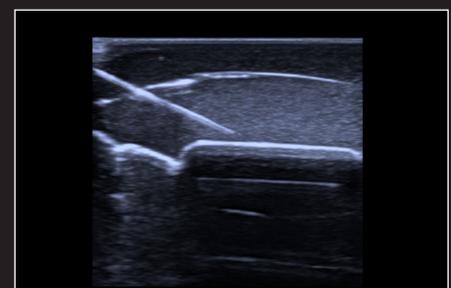

- **iTouch⁺**: One-click optimization and auto-preset adjustment streamline imaging with fewer manual steps
- **Scanning Modes**: B-mode, M-mode, Color Doppler, Power Doppler, PW Doppler
- **iWorks[™]**: Pre-labeled protocols for standardized workflows
- **Smart Measurements**: Smart Bladder, Smart Calc, PW Auto Calc

Portable. Rugged. Ready.

Lightweight, pocket-sized, and wireless, the TE Air e5M is designed for mobility without compromise. With rapid charging, all-day readiness, and IP68 durability, it's built for hospitals, clinics, and field care.

Efficiency That Works for You

TE Air e5M simplifies scanning and adapts to every user. From automation to seamless connectivity, it integrates easily into daily workflows and provides built-in tools for faster learning.

- **App Experience:** Intuitive interface, one-hand operation, onboard patient data management
- **Connectivity:** No cloud. No subscription. Your data, your choice. With seamless PC mode and DICOM/PACS integration for secure, connected care
- **Education at Your Fingertips:** iScanHelper tutorials with anatomical illustrations, reference images, and scanning tips

Air Capsule:

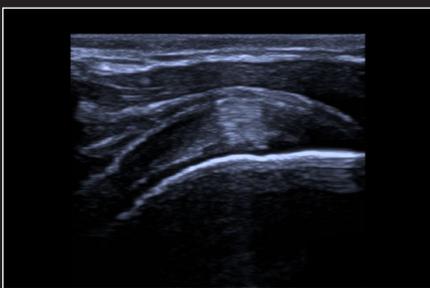

- Protective case and wireless charger in one
- All-day use when fully charged

Limit Downtime:

- 120 min continuous scanning
- 0–90% charge in 35 min
- Three-year warranty

Infection Control Ready:

- IP68 waterproof/dustproof
- Fully immersible for high-level disinfection
- Compatible with sterile probe covers

Peace of Mind Protection

Living Technology

Living Technology™ is a continually evolving software-based approach to providing our customers with easily upgradeable enhancements made possible by our core imaging technologies. These upgrades secure product investment protection by ensuring that Mindray Ultrasound Systems remain at the cutting-edge of imaging performance throughout their entire life cycle.

Standard warranty* includes:

Three years of coverage for:

- Main system and parts, and technical phone support Monday-Friday, 8:30 AM–8:30 PM ET (excluding U.S. holidays)
- Standard transducers (normal wear and failure)
- Software performance updates with Living Technology

* Standard three (3) year warranty is available for systems purchased directly from Mindray North America. Warranties for systems purchased from Mindray authorized agents can vary.
